

Guelph Youth Farm

Anticipation builds at St. Joes on Westmount! That's because this spring Guelph Youth Farm is being launched on the site! The Farm will be a youth-led social enterprise, where youth will be mentored and supported by a unique coalition of businesses, public institutions, and not-for-profit organizations. The Farm will grow and sell fresh food, and will offer youth training programs and services. The Farm's purpose is to support youth to:

- Gain employment and training experience
- Learn and share food and farming skills
- Become creative community leaders

Here is our wish list of a few items we are looking for...
